**Careerpilot**

Any company that sends goods across the company requires a warehouse to store and ship their goods from. This includes companies like Amazon, Sports Direct and all your favourite online brands.

Warehouse workers make sure the orders go out to the right people. Duties include move goods around the warehouse, using IT systems to see where the goods need to go and loading the lorries with the goods.

We have lots of warehouses in Swindon so there is regular work available in this industry.

## **WHERE TO GET SUPPORT**
